

High School, Denver, Colo.
Oct. 7, 1890.

Sereno Watson,
Curator of Herbarium at Harvard.

Please send me the following:
Braum, The Vegetable Individual in its
Relation to Species. 30
Miller, application of the Darwinian
Theory to Flowers and Insects. 25
Andersson, Syn. of U. S. Willows. 25
What is the date of publication
of Torrey & Gray's Flora of U. S.?
How does it compare with Gray's
Synoptical Flora of U. S. in amount
of material?

Please tell me something
about the other volume advertised:
Botany of the Wilkes U. S. Expl. Exped.
I want some books but have no
means of finding out if the
last will supply my need. I
desire to go to California soon and
will need some work on the Flora.
Alice Eastwood.
